From 2003 through 2009, all Stella's were powered by the PX's traditional motor - a 150cc 2-stroke. Unlike the batch of PX scooters Vespa brought to North America in 2005, only the Stella used the newer reed cage instead of the older rotary design. The motor offered reasonable fuel economy for a large 2-stroke and a top speed of 55mph.

Universal Parts 50cc 2-stroke Long Case Engine - Short Block

A 2-stroke engine is a relatively simple concept. A 2-stroke motor jams all the steps in running an engine into two 'strokes'. A 'stroke' is just the piston moving up or down. So in a 2-stroke engine, the motor breathes in fresh air/gas, squishes that, ignites the mix and then expels the exhaust all in just two strokes.

Motor Scooter Guide | 2-Stroke vs. 4-Stroke

A two-stroke engine is a type of internal combustion engine that completes a power cycle with two strokes of the piston during only one crankshaft revolution. This is in contrast to a "four-stroke engine", which requires four
