Albatross

Albatrosses are very large seabirds in the family Diomedidae. Albatrosses, They range widely in the Southern Ocean and the North Pacific. They are absent from the North Atlantic, although fossil remains show they once occurred there and occasional vagrants are found. Albatrosses are among the largest of flying birds, and

the sailor's neck by shipmates to show the guilt in killing it.

Therefore, the albatross can be both an omen of good or bad luck, as well as a metaphor for a burden to be carried as penance. The symbolism used in the Coleridge poem is its highlight. For example:
