### A Mathematician Comes of Age by Steven Krantz | Kevin Houston

Answered June 22, 2014 · Author has 77 answers and 120.6K answer views It is a general truism in mathematics that mathematicians do their best work in their 20s and 30s. All the statistical "evidence" seems to point in this direction, and the Fields Medal took it so far as to have a cut-off age for winning it: 40.

### A Mathematician Comes Of Age Spectrum

Pythagoras was a Greek philosopher and mathematician. He seems to have become interested in philosophy when he was quite young. As part of his education, when he was about age 20 he apparently visited the philosophers Thales and Anaximander on the island of Miletus. Later he founded his famous school at Croton in Italy.
