Wilson, whose prose is always a step above the norm, is at his strongest creating amp-augmented action sequences and in conjuring situations which explore the boundaries between humankind and its technological creations.

AMPED by Daniel H. Wilson | Kirkus Reviews

It’s a familiar Flowers For Algernon conflict (author Daniel H. Wilson even name-checks that book), but there’s more life coming off of Samantha than anybody else in this by-the-numbers tale. To be fair, Amped is an improvement over Wilson’s previous novel, Robopocalypse , a strained attempt to create the World War Z of the future robot wars.
