The answer that you develop is your thesis statement — the central assertion or position that your paper will argue for. In a bigger research project, such as a thesis or dissertation, you might have multiple research questions, but they should all be clearly connected and focused around a central research problem.

Developing Strong Research Questions | Criteria and Examples

In business, and for academic research, the questions we ask must be valid and fair, relating directly to our need for information, in other words our research must have a clear objective purpose, we are not collecting information for its own sake. We must also collect that information (data) in a fair and systematic way.
