Since it's a search engine, browsing for books is almost impossible. The closest thing you can do is use the Authors dropdown in the navigation bar to browse by authors—and even then, you'll have to get used to the terrible user interface of the site overall.

A surprisingly happy experience. I wasn't even asked what the problem was, so I can only assume that they are processing exchanges on many of these units. Based on my experience with the Apex DT502 and the Apex DT250a. I strongly recommend that you check the model numbers carefully and reject the DT502.
