ARCHICAD - YouTube

ARCHICAD is an architecture program using BIM technology (Building Information Modeling). The BIM concept is based on the use of 3D modeling with construction information, which generate automatic drawings of floor plans, sections, facades and details from the two-dimensional reading of the model. The video lessons are divided into 10 chapters, where a house project is done from beginning to the end: We start by presenting BIM concepts, we show the use of DWG reference drawings for terrain ...
