Assault Landing Craft Design Construction And Operations ...

Landing Craft Assault (LCA) was a landing craft used extensively in World War II. Its primary purpose was to ferry troops from transport ships to attack enemy-held shores. The craft derived from a prototype designed by John I. Thornycroft Ltd. of Woolston, Hampshire, UK. During the war it was manufactured throughout the United Kingdom in places as various as small boatyards and furniture manufacturers.

Landing Craft Assault - Wikipedia

The author traces the history and development of the Assault Landing Craft built and used by the British in WWII. (Not to be confused with the Higgins Landing Craft) and its use from 1938-1956. Unlike their American cousins, once the British had decided on the design, few modifications were made.

Assault Landing Craft: Design, Construction & Operations ...

Landing craft are small and medium seagoing watercraft, such as boats and barges, used to convey a landing force from the sea to the shore during an amphibious assault. The term excludes landing ships, which are larger. Production of landing craft peaked during World War II, with a significant
