How to replace timing belt cambelt on 1.6 1.8 Zafira Astra Vectra Z16XER Z18XER

The timing belt links up the top and bottom parts of the engine. The belt matches the timing of the valves and ignition with the timing of the pistons inside the engine. What it does is keeping everything in check, to ensure your engine runs smoothly. Incorrect timing of the engine can be due to many things.

When Do I Need To Replace My Timing Belt? - ClickMechanic ...

Many vauxhalls have timing CHAINS which are almost indestructible so you would be wise to ring your local dealer and give them the registration and check to see if it has a chain instead of a belt. Chains CAN rattle but that does not mean they need changing - a timing chain should have a lifespan of at least 200k.

Astra Timing Belt replacement — MoneySavingExpert Forum

Remove the timing belt lower cover. Refer to Timing Belt Lower Cover Replacement . 2. Rotate the crankshaft clockwise until the notch in the crankshaft sprocket (2) aligns with the mark in the oil pump housing (1). 3. Fix the camshaft pulley as shown (1) by installing a M6x1.25 bolt (2).
