Aural Skills Acquisition The Development

Throughout the book the author presents these skills in their musical contexts and emphasizes their roles in the general development of musicality. Aural Skills Acquisition builds important bridges between music theory, cognitive psychology, and pedagogy. It subjects ideas from music theory to the rigors of psychological testing and combines findings from the psychology of learning with ideas and methods of contemporary music theory.

Apart from the classroom strategy mentioned above, aural skills can be further developed by any one of the following activities: listening to the radio, watching (subtitled) films, and TV/internet programs. In the case of oral skills, these can best be developed by interaction: question and answer situations, group work, role play, and small speeches all contribute to the development of the student's oral skills.

Aural & Oral Skills Development - WTEFLAC

Ear training or aural skills is a music theory study in which musicians learn to identify pitches, intervals, melody, chords, rhythms, solfeges, and other basic elements of music, solely by hearing. The application of this skill is analogous to taking dictation in written/spoken language. As a process, ear training is in essence the inverse of sight-reading, the latter being analogous to reading a written text aloud without prior opportunity to review the material. Ear training is typically a co

Ear training - Wikipedia

As with other aspects of development, language acquisition is not predictable. One child may say her first word at 10 months, another at 20 months. One child may use complex sentences at 5 1/2 years, another at 3 years.

Aural Skills Acquisition: The Development of Listening ...

Also, of course, part of aural comprehension is learning to decipher nonverbal clues. Pure listening is rarely a good strategy for sustained language acquisition. Even if students are still in their silent period – a common phase for beginners, in which they speak very little if at all, – teachers should encourage active participation from them. This is the only way to confirm that they have understood.
