You won't find fiction here - like Wikipedia, Wikibooks is devoted entirely to the sharing of knowledge.

Automatic Transmission Valve Body Repair

The choice to rebuild or replace the transmission valve body entirely isn't one size fits all. Here's what to consider when you're making that decision in your shop. Rebuilding vs. Replacing the Valve Body. The valve body is a part of all automatic transmissions that acts as the main control center of the system. When a failing valve body causes symptoms and/or failures like noise during gear shifts, slippage, delays, and difficulty reversing, a driver is left with no choice but to fix or ...

Transmission Valve Bodies: Rebuild or Replace?

An average transmission valve body piece will cost between \$200 to \$500. In addition, the labor costs tend to be quite extensive as replacing a transmission valve body can take anywhere from 2 to 4 hours to finish. So, it is important to note that the hourly rate of a mechanic fluctuates between \$60 to \$100.

Valve Body | Valve Bodies Repairs | UK - Valve Bodies UK Ltd

To shift properly, the automatic transmission has to know how hard the engine is working. There are two different ways that this is done. Some cars have a simple cable linkage connected to a throttle valve in the transmission. The further the gas pedal is pressed, the more pressure is put on the throttle valve.
