Materials Science Summer Day Camp, University of Washington» The Materials Science and Engineering Department hosts this week long summer day camp for rising high school juniors and seniors interested in science and math. Students receive training in applied math, physics and chemistry and are also paired with a professional mentor.

UW GenOM Project, Partner Programs for High School Students

An automotive engineer's career training begins with a four-year bachelor's degree from an accredited college or university. This is generally the basic requirement for entry-level jobs in the career. While pursuing their bachelor's degree, students take classes in a range of fields, including physics, mathematics, design and computer science.
