Parker Hannifin - Parker's Motion and Control Blog

The P5L-B Series features a machined, anodized one-piece aluminum body with counterbored through holes and T-slots for mounting flexibility. Standard dowel pin holes provide precision mounting for the body and tool plate. Standard piston wear bands allow the piston rod assembly to ""float"" in the bore thereby eliminating metal-to-metal contact.

Pneumatic Guided Cylinder Slide - P5L-B Series | Parker NA

Parker's B3 series valve is a general inline industrial valve, offered in a variety of sizes and configurations, robustly engineered to reduce friction and valve leakage while extending the life of your general industrial application. The valve can be installed as a single valve for point-of-use applications or mounted on aluminum bar manifolds ...
