Gasbags - video dailymotion

In 1938 the British Balloon Command was established to protect cities and key targets such as industrial areas, ports and harbours. Balloons were intended to defend against dive bombers flying at heights up to 5,000 feet (1,500 m), forcing them to fly higher and into the range of concentrated anti-aircraft fire: anti-aircraft guns could not traverse fast enough to attack aircraft flying at low ...

What makes World War II so special? - Scanning WWII

These unmanned gasbags, piloted by a team on the ground, were destined to hover in large numbers over strategic sites, particularly West Coast defense plants and shipyards, creating dangerous obstacles for low-flying enemy aircraft. Similar balloons were already in use over Britain, Germany, Japan, and the Soviet Union.

Unknown Soldiers - How Black Barrage Balloon Troops Kept ...

The Rozière type has both heated and unheated lifting gases in separate gasbags. This type of balloon is sometimes used for long-distance record flights, such as the recent circumnavigations, but is not otherwise in use. Both the hot air, or Montgolfière, balloon and the gas balloon are still in common use.
