Caring for the Chronically Ill During Emergencies. In both early 2015 and 2016, two major winter storms, Octavia and Jonas, led to a state of emergency in many counties in Kentucky, with road closures that included major interstates. During these storms, the Kentucky Department for Public Health was able to continue caring for vulnerable patients, because they had established state and local public health emergency expertise and had relationships in place with partners such as law ...

Caring for the Chronically Ill During Emergencies

The passage of the Family Medical Leave Act relieves the fear that an employer will fire a parent who must be absent to care for a chronically ill child. This act allows an employee to take up to 12 weeks of unpaid leave a year to care for a family member who is ill. Nurses have a significant role with families.
