Check Engine Light Pontiac G6

A check engine light can indicate a broad spectrum of problems with your 2007 Pontiac G6. In some cases you need to pull over immediately to prevent damage while in others you merely need to tighten you gas cap next time you stop in order to reset the service engine soon light.

Engine Light Is On: 2005-2010 Pontiac G6 - What to Do ...

May 9, 2019 by Jason. A flashing check engine light is your Pontiac G6's way of saying "I have a serious problem, don't ignore me". Most of the time, that serious problem is a misfire. This flashing light should not be ignored. When your engine is misfiring, it is dumping raw fuel into the exhaust. This raw fuel can detonate, which causes damage to the catalytic converter and the exhaust system itself.

Pontiac G6: Flashing Check Engine Light Diagnosis ...

Forework. Check engine lights go on when there is a problem in the engine or the emissions control system. You should always have the codes generated by your car's computer scanned and read so you can determine the cause. You can reset the light once you have fixed the problem. Check the Error Codes.

Check engine light comes on & car begins to lose power. You can remove battery power & reconnect & car drives fine for about 5 minutes then shut down again. I was advised that it maybe the...

2007 Pontiac G6 Check Engine Light Is On: 6 Complaints

first be sure that its the engine light and not the "service" light, the service light will usually illuminate if its time for an oil change. If its the service light ur owners manual should tell u how to reset it. If its ur engine light then try disconnecting ur positive battery cable for 1 minute. that should reset ur ecm and get rid of the engine light. if the engine light comes back on then have a diagnostic scan done to determine whats causing it.
