EZGas Pro Burner - Carlin Combustion Technology, Inc.

A typical oil to gas conversion includes replacing your existing oil heat boiler and all of the pipes, pumps and electrical components near the boiler. Converting from oil to gas can be costly, messy and disruptive to your home. The Beckett CG4 conversion gas burner directly replaces only the oil burner on your oil heat boiler leaving all other system components in place saving thousands of dollars.

CG4 Gas Burner | Beckett Corp.

The ECONOMITE F400B-33 conversion burner with intermittent spark ignited pilot is adaptable to most gas utilization equipment, including gravity and forced circulation furnaces and boilers. It is particularly recommended for firing horizontal or downdraft equipment since it needs no draft to maintain a pilot.
