Eagleton

cultures view the end

Death has been personified as a figure or fictional character in mythology and popular culture since the earliest days of storytelling. Because the reality of death has had a substantial influence on the human psyche and the development of civilization as a whole, the personification of Death as a living, sentient entity is a concept that has existed in many societies since before the beginning of recorded history .

Death and culture - Wikipedia

Culture of death and culture of life are two opposing doctrines in the Catholic Church's moral theology. SpiritualRay sheds light on the difference between the two. "Man is called to a fullness of life which far exceeds the dimensions of his earthly existence, because it consists in sharing the very life of God."
