The Engines of Light is comprised of 3 books. I must admit that it didn't sound too much fun at the beginning and it's a little confusing when you start reading the first book, but it quickly becomes interesting. In every book there's a clash between different social ideas, individualistic vs colectivistic societies.

Engine City (Engines Of Light, #3) by Ken MacLeod

The Concluding Volume of the Engines of Light. With Cosmonaut Keep and Dark Light, both finalists for science fiction's Hugo Award, Ken MacLeod launched a new interstellar epic with all the engaging characters and ingenious SF inventiveness of his earlier Fall Revolution novels. Now MacLeod delivers the culmination of his epic of a human future crammed with innumerable varieties of intelligent alien life, and in which humans find themselves involved in the politics of aliens as powerful and ...

Engine City: The Stunning Conclusion to the Engines of Light

Engine City is a science fiction novel by Scottish writer Ken MacLeod, published in 2002. It is the third novel in the Engines of Light Trilogy . The novel follows on from Dark Light and is also set in the "Second Sphere", primarily in the city of Nova Babylonia, the plot centering on the arrival of humans from the edge of the sphere offering immortality and warning of an impending alien invasion.
