Ericsson is shaping the future of mobile broadband Internet communications through its continuous technology leadership, helping to create the most powerful communication companies in the world.

Ericsson - A world of communication

For organizations with call center operations, MX-ONE can be combined with Ericsson's IP-based contact center solution, Solidus eCare, to provide voice and multimedia customer care services and link in mobile and remote agents. The new release of MX-ONE completes the feature set of Ericsson's IP-based communications platform, following the introduction of the first building block, the MX-ONE Telephony System, in 2004.
