Outline of finance - Wikipedia

Measuring the derivative is just like putting electrodes on a function and making it run. For $f(x) = x^2$ $f'(x) = 2x$, we stick an electrode of $+1 + 1$ onto it, to see how it reacted: The horizontal stripe is the result of our change applied along the top of the shape. The vertical stripe is our change moving along the side.

Lesson 10: The Theory Of Derivatives - BetterExplained

Derivatives are financial contracts whose value/price is dependent on the behavior of the price of one or more basic underlying asset (often simply known as underlying).These contracts are legally binding agreements, made on trading screen of stock exchange, to buy or sell an asset in future.

Most derivatives books are written by academics and are long on theory Leonardo Marroni - Pricing and Hedging Financial Derivatives

Leonardo Marroni - Pricing and Hedging Financial Derivatives

To name a specific contract in a financial futures market, the month code will follow the contract code, and in turn be followed by the year. For example, CL23 is the December 2023 NYMEX crude oil contract. CL denotes crude oil (crude light), 2 corresponds to the December delivery month, and 3 refers to 2023. References
