Food Sovereignty, Agroecology and Biocultural Diversity ...

Deepening democracy in the construction of knowledge for food sovereignty, agroecology and biocultural diversity depends on further strengthening grassroots research and innovation networks. In sharp contrast, networks of peasant farmers, pastoralists, indigenous peoples, fishers, food workers, forest dwellers and other citizens create knowledge and innovations through self-organizing processes under their control.

Food Sovereignty, Agroecology and Biocultural Diversity

Food Sovereignty, Agroecology and Biocultural Diversity is essential reading for all who can see that the dominant paradigm has run its course. We need both to rethink, and to rethink the way that we think. Colin Tudge is co-founder of The College for Real Farming and Food Culture.

Resurgence • Article - There is Another Way

Agroecology is a term being filled with multiple meanings... Agroecology is a movement. It is knowledge and wisdom. It is "a science". Cultural practices. Technical application of particular practices. It is viewed by some as a business opportunity. A way to realise food sovereignty. A marketing tool for agribusiness. A way of life.
