Ford Transit Charging Circuit

Note: 2015-2019 Ford Transit Ford recommends using the vehicle Customer Connection Points (CCP) to power the liftgate. Vehicle option 67C-User Defined Upfitter Switches, provides three (3) 60 amp CCP, which can be combined into one 180 amp connection. If three (3) CCP are not available, Ford part number BK2Z-145411-A adds the additional CCP.

Ford Transit Battery Wiring Instructions

2018 250 148wb. I was wondering if i shouldn't double that 27A for the series set up. But I didn't realize that the batteries themselves would throttle the incoming charge. I was concerned about the batteries getting damaged by too high of an incoming charge. I know the cable size is overkill but wanted to size for a more robust system down the ...

ACR charging question | Ford Transit USA Forum

Summary Some 2018-2020 Transit Connect vehicles built on or after 27-Sep-2018 may exhibit a customer symptom of a wireless charging system that appears inoperative. These vehicles will have a mobile device holder with a rubber mat with wireless charging symbols but may not be equipped with the wireless charging feature.
