FOSS Force and Motion Course Contents (9-12 weeks) Investigation 1: Here to There Introduction to position and distance. Investigation 2: Speed Introduction to the function of change of position over time. Investigation 3: Comparing Speed Using graphic and mathematical methods to compare speeds and average speeds. Investigation 4: Representing Motion

FOSS Force and Motion: Understanding What We Already Know ...
Force and Motion. Force and motion are fundamental to all matter in the universe and are integral parts of our daily lives. A force is a push or a pull on an object that is caused by an interaction with another object. Forces influence objects that are at rest or that are already in motion. Isaac Newton's three laws of motion describe how forces interact with objects to influence motion.

Science A-Z Force & Motion Grades 5-6 Physical Science Unit
•A FOSS Force and Motion Resources book containing data and readings that are used throughout the course. Thirty-two copies of the full-color resources book come with the kit. They are intended to be used as classroom resources, shared by all students.
