DC Superheroes arcade game is a Token + Card Pusher Arcade Game which the players try to press the “shoot” button to rotate the large wheel on the back wall of the cabinet and drop a token through a peg maze. Get the token through the “Bonus Drop” area of the maze in order for players to collect cards and win tickets!

DC Superheroes Coin-Pusher - Betson Enterprises
Michael Denio wrote in the introduction to the game's manual: The Adventures of Captain Comic started out as an experiment to test the viability of two theories, the first as to whether a real arcade type game can be done on a standard IBM PC with an EGA card, and secondly, given the first can be done, if it is possible to make any money doing it. Well, I've come to a conclusion on the second point, but I'll let you judge the first point for yourself.

The Adventures of Captain Comic - Wikipedia
I got this for my son for Christmas. It is fun to remember what atari really was like in the 80s and how bad the graphics really were compared to now. I wouldve given it 4 stars if it had more games on it or if it could take games. It comes with certain games preloaded and thats all it can play. I wouldve liked pac man and frogger, among others.
