Anyway, Korean is truly a gendered language. This is something that appears obvious in the case that there are some words you can only use if you are a guy (노ona to an older woman or hyeong to an older man) and if you are a girl (eonni to an older woman or oppa to an older man).

### A gendered language: boy Korean or girl Korean? - Sofie to ...

This practice has negative consequences on Korean-immigrant women as social services and other outlets that help women in these kinds of situations are not aware of the high numbers of abuse within Korean immigrant relationships. Isolation has been a huge influential factor in the small number of reports made for domestic violence.

### Domestic violence among Korean-American immigrants - Wikipedia

Whether immigrant women's introduction to paid labor empowers them with greater autonomy or exacerbates their oppression has been debated variously in the scholarship on gender and migration. In this paper, the author examines Korean immigrant women's perspectives on work outside the home after migration.
