### 10 Reasons Why Humans May Not Have Come From Earth

The author's belief is that human beings, as we are today, are not from the Earth but from another planet, brought here several times by aliens. Natural disasters killed off some groups so others had to be brought in. His assmption that we are not native to this planet is based on human biology and difficulties with our bodies. As to our supposed

Humans are not from Earth: a scientific evaluation of the ...  
Many researchers have come to the conclusion that human beings are not from Earth. After a balloon came back from a high altitude flight, it was covered with microscopic life forms that originated from space fueling debate about whether life on earth began here or elsewhere in space. Other scientists have argued that life originated on Mars due to a mineral found in Martian meteorites, a concept that is crucial for the genesis of life.
