This volume attempts to highlight some of the key features of Islamic finance relevant to economic development. The objective of the volume is to improve understanding of the perspective of Islamic finance on economic development, social and economic justice, human welfare, and economic growth.

Economic Development and Islamic Finance (Directions in ...

Abstract. Islamic finance has been practiced in some form since the inception of Islam, its practice in modern financial markets became recognized only in the 1980s, and began to represent a meaningful share of global financial activity only around the beginning of this century. In recent years, significant interest in Islamic finance has emerged in the world's leading conventional financial centers, including London, New York, and Hong Kong, and Western investors are ...
