## **Islamic Finance for Dummies by Faleel Jamaldeen**

Islamic finance is a financial system that operates according to Islamic law (which is called sharia) and is, therefore, sharia-compliant. Just like conventional financial systems, Islamic finance features banks, capital markets, fund managers, investment firms, and insurance companies. However, these entities are governed both by Islamic law and the finance industry rules and regulations that apply to their conventional

Suffice it to say, also, that if I wrote "American Capitalism for Dummies" I would likely gloss over our breakdowns as well. However, there is a tilt here. You should be aware of that. Jamaldeen suggest that investing through Islamic financial situations is more socially responsible, but you should research that through a few other sources as well.
