J20a Engine

The Suzuki J20 is a 2.0 L (1,995 cc, 121.74) straight-four 4-stroke natural aspirated gasoline engine from the Suzuki J-family. The J20 engine was manufactured by Suzuki Motor Corporation. The J20 engine features an aluminum cylinder block and aluminum cylinder head with two overhead camshafts (DOHC) and four valves per cylinder (16 in total).

Suzuki J20 (2.0 L, DOHC VVT) engine: review and specs ...

The most common was the two-liter J20A engine. The design of the engine is quite simple and allows you to perform many repairs on their own. A fairly common crossover "Suzuki Vitara" and "Grand Vitara" began to be produced from the end of 1996.

Engine J20A: characteristics, resource, repair, reviews ...

This is a list of automobile engines developed and sold by the Suzuki Motor Corporation. Suzuki is unusual in never having made a pushrod automobile engine, and in having depended on two-strokes for longer than most. Their first four-stroke engine was the SOHC F8A, which appeared in 1977. Suzuki continued to offer a two-stroke engine in an automotive application for a considerably longer time ...

Suzuki - J20A engine - Japan Partner

The problem i having is it seems that the engine seems to be struggling (i think due to all the extra weight and the larger tyres) and fuel economy is shocking. I am pretty new to suzukis so i was thinking to converting to a v6 h25a engine (or something better) or is there something you can do to the j20a engine to give it that more power.

suzuki vitara 2.0 engine | eBay

The Engine is arranged vertically in a number of cylinders with a displacement of 1,995 liters. Depending on the type of firmware of the electronic control unit the engine has an output of 128 to 146 forces. Inherent in the design of the development potential of the engine J20A allowed him to stay in the trade for almost 20 years.

Engine J20A: features, online, repair, reviews. Suzuki ...

The J20A engine is built very strong and reliable and could quite easily withstand a lot of power increases; however, tripling the horsepower is a whole different story. The J20A, I would say, is an engine with a "neutral" design - that is, its design is not strongly biased in any particular direction.
