### Action Learning - Overview, Guide, Example of How it Works

Action learning is not one specific teaching method, but rather a philosophy and an approach which encourages action within a team environment where learning is every participant's job. All action learning approaches are philosophically rooted in theories of learning from experience, as practiced collaboratively with others through some form of action research.

### Why Action Learning is Important for the Modern Teaching ...

Few-shot learning (FSL) for action recognition is a challenging task of recognizing novel action categories which are represented by few instances in the training data. In a more generalized FSL setting (G-FSL), both seen as well as novel action categories need to be recognized. Conventional classifiers suffer due to inadequate data in FSL setting and inherent bias towards seen action ...
