museum professionals understand their constituents. Falk and Dierking integrate their original research from a wide variety of disciplines as well as visitor studies from institutions ranging from science centers and zoos to art and natural history museums.

The Museum Experience: Falk, John H, Dierking, Lynn D ...

Active learning occurs when people stretch their minds to interact with the information and experiences at hand. In art museums, visitors are learning actively when they do such things as: formulate their own questions about works of art, reflect on their own ideas and impressions, make their own discerning judgments, construct their own interpretations, and seek their own personal connections.

In this lesson, students reflect on the exhibits, learning experiences and purposes of science museums, then prepare for and visit a local science museum where they engage in an open-ended scavenger hunt. Afterward, they develop scripts for a museum guide to use with visitors or generate ideas for their own science museum.
