It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator – a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

As far as studying for med-surg, especially last semester when I had to take the Hesi interim, I found the mosby study guide to be the most helpful. It's not a large or thick book like many of the Nclx books, but just a really condensed version of all the normals and problems you will find on med-surg system by system.
