Course details | Microsoft Learning

You have to get hands-on experience with the product (which is enclosed with the kit). Use the book as a starting point, then explore menu options and test different configurations. Experiment with the command line utilities. This process worked great for me. Also enclosed with the kit are copies of the TCP/IP RFCs. Explore them too.

TCP/IP for Microsoft Windows NT (Academic Learning ...

TCP/IP is the core protocol suite that is used on the Internet. In Windows Server 2012, TCP/IP – including both Internet Protocol version 4 (IPv4) and IPv6 – is unchanged from TCP/IP in Windows Server 2008 R2. For more information, see TCP/IP in the Windows Server® 2008 and Windows Server 2008 R2 Technical Library.
