Games: Disillusionists, Book 1 by Carolyn Crane narrated by Rebecca Wisocky. Great original idea but only average performance and story telling 3/5 for both. The good is that I loved the concept of this book. Justine Jones has debilitating hypochondria which is destroying her life and may eventually lead to the loss of everything she cares for.

I think I'm always behind the curve when it comes to the Urban Fantasy genre; another title which I got clued much later than its release was Mind Games by Carolyn Crane, first in the The Disillusionists Trilogy. This book has been getting high praise from various sections, but me being me, never got around to reading it. Though, I was able to rectify this situation a few weeks ago when I read both her books back to back.

left me an impression of a courageous young woman well aware of her own insanity, who becomes heroic. In the sequel, Justine is neurotic, whiny, and self-absorbed, and the author's use of the present tense serves to focus this neurosis right at the reader.

Her Disillusionists series is something rare in UF: a world in which the central characters . utilize powers formulated from the human psyche, from the recesses of fear and paranoia, recklessness and excess. Crane has set herself apart in a genre full of the supernatural, of the fantastic and built a world around the politics of power and the neurosis of the human condition.
