Minimal Ethics for the Anthropocene

Minimal ethics for the Anthropocene is therefore less about building a better world as an external unity and more about making better cuts into that which we are naming the world. But, to avoid becoming yet another masculinist enterprise which knows in advance and once and for all what it is striving for, the minimal ethics proposed here has to embrace the very openness and vagueness of its premises.

Minimal Ethics for the Anthropocene. 2. Scale. Fig. 3. Joanna Zylińska, *Topia daedala* 3, 2014. The minimal ethics posited in this book needs to be thought on a universal scale. This may sound like a paradox, yet it will only seem so if we rush ahead of ourselves and expect such ethics to furnish us with some generally applicable principles that will have to remain valid across all times and locales.

Minimal Ethics for the Anthropocene by Joanna Zylinska

Anthropocene names a geo-historical period in which humans are said to have become the biggest threat to life on earth. However, rather than as a scientific descriptor, the term serves here primarily as an ethical injunction to think critically about human and nonhuman agency in the universe.

A minimal ethics is well-suited for the reduced ecologies of the Anthropocene. The nine short essays, twenty-one theses of a biopoetic manifesto, and interpolated photographs that comprise Minimal Ethics respond to this diminishing biosphere while abandoning any straightforward articulation of a moral philosophy. It is a book of questions.

This account of Minimal Ethics in the Anthropocene is a particular set of cuts made into the fabric of the text. There is a lot to think about in this brief book. I have not touched on Zylinska's account of life and death in the Anthropocene but could imagine a rich engagement with this discourse in epideictic rhetoric.
