Free VCE Biology notes on human evolution. The fossil record of hominins is very poor, and even if we do have the fossils, they are generally incomplete. Hominins have not been around for very long, don't live in places conducive to fossilisation and have behaviours such as burying the dead that make the fossilisation of humans extremely rare.

Evolution Notes - The Biology Corner

Darwin is considered the father of evolution. In truth, Darwin arrived at his theory of evolution at the same time another scientist, Alfred Russell Wallace, came to the same conclusion. However, Darwin was a respected scientist even before he wrote On the Origin of Species, while Wallace was relatively unknown, so people were more inclined to listen to Darwin.
