Standards and Best Practices. A shared set standards are a critical element for any professional field. Standards are a tool to help museums assess and align their operations and performance; they serve to hold museums accountable—to each other, their stakeholders, the public and society at large; and they enable museum leadership and staff to make informed, ethical and consistent decisions in support of their mission and public trust responsibilities.

Museum Standards and Best Practices

NOTICE - National Conservation Practice standards should not be used to plan, design or install a conservation practice. You must have the conservation practice standard developed by the state in which you are working to insure that you meet all state and local criteria, which may be more restrictive than national criteria.
