felt swans found in Siberian tombs (specifically, tombs in the Pazyryk region of the Altai Mountains) that date back to the third century BCE are some of the earliest known examples. But the intricacy of these swans indicates that these felting techniques had already been around for a while, even then.

She likens the process more to sculpting than sewing. "Needle felting works by taking loose wool and forming it into shapes with a felting needle," she explains. "The felting needle is barbed on the tip, so when you poke it into the wool, it tangles some of the fibers together, and eventually it will hold its shape and become denser the ...
