You won't find fiction here - like Wikipedia, Wikibooks is devoted entirely to the sharing of knowledge.

Neuro Web Design
Neuro Web Design gave me a new perspective and made me think about things I had never (consciously) considered before. This is not an instructional book. It is not a scientific treatise, nor does it teach you how to design. But it has given me a new understanding of why people do what they do online and how to better engage with them.
