## **Objects And Attention Cognition Special Issue**

Although psychology is the science of mental life and behavior, little attention has been paid to the  
means by which mental life is translated into behavior. One domain in which links between  
cognition and action have been explored is the manipulation of objects. This article reviews  
psychological r ...

## **Cognition, action, and object manipulation**

This special issue of Cognition is concerned with the idea that attention and objecthood are  
intimately and importantly related. The papers in this collection review the evidence for object-  
based attention, discuss what attentional objects are, and discuss links both to other modalities  
(e.g. auditory objects of attention)
