Oracle 12c For Dummies - nsaidalliance.com

Data Guard is Oracle 12c's true disaster protection technology. In it, you have a minimum of two databases, primary and standby. Data Guard has options for multiple standby sites as well as an active-active configuration. By active-active, it means both/all sites are up, running, and accessible. This is opposed to sites that have one active location and the others must be started up when they are needed.
