Photography Changes Everything became clearer, to create an opportunity to explore the medium's active role in our lives and world. Easier said than done, as art historian John Tagg pointed out when he described the medium's slipperiness: Photography as such has no identity. Its status as a technology varies with the power relations which invest it.

Leila Boujnane. Leila Boujnane is the founder and CEO of TinEye. TinEye is an image search company using computer vision, pattern recognition, neural networks and machine learning to make images searchable.. Leila changed the course of image search by leading the team who built TinEye, the world's first reverse image search engine.

About — Photography changes everything

Ever since it was invented around 200 years ago, photography has permanently changed both art and culture with its ability to document a split-second of time, construct history, memory, truth and identity.

Marvin Heiferman, Photography Changes Everything

The interdisciplinary stories they told and the images they've shared—on the website, and now in the just-published book version of the project, Photography Changes Everything (Aperture/Smithsonian, 2012)—reveal that photography, far from being a shared language, is complex and subject to rules, specific criteria, and expectations that vary from one context and field to another. And if we tend to think of photographs as rear-view mirrors, the reality, as this project proves, is that ...

44 Inspiring Photo Blogs for Photography Lovers

It's great, it's great. [MUSIC] >> I loved the title of your book, Photography Changes Everything, because of course it does. And I thought maybe we'd start with talking a little bit about that project. >> So I spent about three years reaching out to almost 100 people, asking them to think how photography changed what they did.
