## **Professional Node.js - O'Reilly Media**

Node.js is an open-source, cross-platform, back-end, JavaScript runtime environment that executes JavaScript code outside a web browser. Node.js lets developers use JavaScript to write command line tools and for server-side scripting—running scripts server-side to produce dynamic web page content before the page is sent to the user's web browser. Consequently, Node.js represents a "JavaScript everywhere" paradigm, unifying web-application development around a single programming language ...

## **Node.js - Wikipedia**

Express JS is the pre-built Node JS framework that can help developers build faster and smarter websites and web apps. While NodeJS is a brilliant server-side technology, it can now be extended to building complete web apps using Express.
