Program directly from CAD, and import CAD files into a true CAD / CAM system that outputs Mazatrol and G-code. Simply click on the CAD drawing to tell it what you want to cut, then the system will make the Mazatrol or G-code with the dimensions and measurements from the CAD information, instead of entering each number by hand.

One of the more sophisticated computer numerical controls (CNC) used on the shop floor today is Mazak's Mazatrol Matrix control. The Matrix control offers either conversational programming or more traditional G-code programming to run the machine tool. Mazak machines are particularly known for quality construction and mill-turn capability.
