School feeding programmes (SFPs) are one of several interventions that can address some of the nutrition and health problems of school age children. SFPs and other school-based nutrition and health programs. (Meyers, 1989) states that United States of America showed the benefits of providing breakfast to disadvantaged children.

Project proposal, Reports and Assignments: School Feeding 1

Components to start the Feeding Program: 1.) In a feeding program, the first thing to do is assess the community. Check if the project is feasible and sustainable. The community must identify malnutrition as a problem and not merely use the feeding program as a means to feed their children. For one, you can't make it a dole out project. 2.)
