Psychological Types By Carl Jung

Psychological Types (German: Psychologische Typen) is a book by Carl Jung that was originally published in German by Rascher Verlag in 1921, and translated into English in 1971, becoming volume 6 of The Collected Works of C. G. Jung. In the book, Jung proposes four main functions of consciousness: two perceiving or non-rational functions (Sensation and Intuition), and two judging or rational functions (Thinking and Feeling).

Psychological Types - Wikipedia

The eight psychological types are as follows: Extraverted sensation Introverted sensation Extraverted intuition Introverted intuition Extraverted thinking Introverted thinking Extraverted feeling Introverted feeling In "Psychological Types," Jung describes in detail the effects of tensions between the complexes associated with the dominant and inferior differentiating functions in highly and even extremely one-sided types.

C.G. Jung's (1921 / 1971) theory of psychological types attempts to categorize people in terms of their primary modes of psychological functioning. The theory is based on the assumption that there are different attitudes and functions of consciousness. The attitudes and functions operate as pairs of opposite and compensatory tendencies.

Jung's Theory of Psychological Types - Watchword Test

Carl Jung rejected the tabula rasa theory of human psychological development. He proposed that thoughts, connections, behaviors, and feelings exist within the human race such as belonging, love, death, and fear, among others. These constitute what Jung called as "collective unconscious" and the concept of archetypes underpin this notion. He believed that evolutionary pressures have individual ...

Jungian archetypes - Wikipedia

The theory of psychological type comes from Swiss psychiatrist Carl G. Jung (1875-1961) who wrote that what appears to be random behavior is actually the result of differences in the way people prefer to use their mental capacities. He observed that people generally engage in one of two mental functions:
