Public Procurement In The Eu

Context. Every year, over 250,000 public authorities in the EU spend around 14% of GDP on the purchase of services, works and supplies. Public procurement refers to the process by which public authorities, such as government departments or local authorities, purchase work, goods or services from companies. To create a level playing field for all businesses across Europe, EU law sets out minimum harmonised public procurement rules.

Public procurement | European Commission

Public procurement can be a key tool in driving the development of innovative goods and services on the European market. By working together, and pooling their resources, cities, central purchasing bodies, and other major public procurers can maximise their market power and impact.
