My first radio shack was a icom ic260, followed by an ic490 but between the two i had made my own 438.5 atv reciever, and was also very active on rtty, with a sagem spe5 and a home built codeur decodeur for rtty. I prided myself in making what i couldn't buy or find.

### What was your very first "shack" setup? | Page 27 | QRZ Forums

Circuit City showed them in stock in their Harrisburg East store, so I picked it up from there. I already had a Radio Shack ATV 1000 combo VHF/UHF/FM indoor antenna, so I plugged that in to the DTT901. I was pleasantly surprised when I performed the first auto-scan and received all the local digital stations clearly except for WPMT-DT (Fox).

Personally I prefer the 102" steel whip that is sold at Radio Shack for \$14.95. If you do not see it on ht shelf they can order it for you. It is the cheapest easy to find antenna I have found and they are hard to destroy off-road. I broke two fiberglass antenna's before switching to the steel whip.

### Radio Manual For Sale - Farm Tractor Parts & Equipment

I have a Radio Shack sport radio mounted right under the ashtray/coin holder and have no clearance problems. Mine is recessed all the way back so that the antenna cable barely clears the firewall. I really like it there. I have a floor shifter so a console mount wouldn't work for me either.
