The first part of your project will be to create a plan drawing of one floor of your home. It must include distances and measurements, and must also include at least one of each of these types of shapes: o Square o Rectangle o Triangle o Circle (at least a portion of a circle, for example a semi circle)

As far as home remodeling goes, expectations and plans likely won't match up with reality. A new survey finds that 90 percent of homeowners plan to remodel their home at some point, but 47 percent (almost half) of them are not willing to spend more than \$5,000 on that remodel. This is what \$5,000 can do for various home remodeling projects.

But, finding the best team for your remodeling project goes beyond a simple reference check. The architect who has won top awards may have a design vision very different from your own. If you have an older house, hire someone who knows the time period when your house was built; putting a finger on historical appropriateness is an undervalued skill.
